

In response to your letter dated April 6 regarding the Year End Report please note that the committee is not large enough for an office. All administrative activites are handled by consultants. You will see payments made in the reports you listed to Political Compliance Services which is the compnay that manages the committee. You will also find printing costs as a cost of doing business. There are no cell phones, salaries, rent or utilities.

Please contact me with any further questions. Thank you.
